

ATUL SHARMA

Full Stack Engineer | Mobile App Developer (React Native) | DevOps Engineer

Meerut, Uttar Pradesh, India | +91 9389662014 | atulbramhan@gmail.com
LinkedIn: [linkedin.com/in/atul-sharma-9b183b250](https://www.linkedin.com/in/atul-sharma-9b183b250) | GitHub: github.com/atul0223

PROFESSIONAL SUMMARY

Full Stack Engineer with 10+ months of professional experience building and shipping web and mobile applications using React, React Native (Expo), Node.js, Express, TypeScript and MongoDB. Develops cross-platform Android/iOS apps and admin portals, designs secure REST APIs with JWT and role-based access control, and owns deployment end to end with Docker, Linux and cloud platforms (AWS, Render, Vercel). Focused on clean, scalable code, performance and reliable production releases.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Tailwind CSS, ShadCN UI, Bootstrap, Responsive Web Design

Mobile: React Native, Expo, Expo Router, React Native Reanimated, Expo Video, AsyncStorage, EAS Build, Android & iOS

Backend: Node.js, Express.js, REST APIs, Socket.IO, WebSockets, JWT Authentication, RBAC, Rate Limiting, Multer

Databases: MongoDB, Mongoose ODM, MySQL

DevOps & Cloud: Docker (multi-stage builds), Linux, AWS, Render (Blueprint / Infrastructure as Code), Vercel, Netlify, Cloudinary CDN, FFmpeg, Environment & Secrets Management, Networking

Tools: Git, GitHub, Postman, VS Code, npm / yarn, AI-assisted development

PROFESSIONAL EXPERIENCE

MS Finline Pvt Ltd | Full Stack Engineer (Full-time)

Dec 2025 – Present (10 months)

Meerut, Uttar Pradesh | On-site

- Develop and maintain full-stack web and mobile applications using React, React Native (Expo), Node.js, Express, TypeScript and MongoDB.
- Built cross-platform Android and iOS applications with React Native and Expo, and generated production builds (APK/AAB) using EAS Build.
- Developed admin and sub-admin web portals along with user-facing REST APIs for a financial services platform, including authentication and role-based access control.
- Containerized backend services with Docker and managed deployments on Linux-based cloud environments, handling environment configuration and secrets.
- Collaborated with the team on requirements, code reviews and debugging to deliver stable production releases.

Creative Tura | Full Stack Engineer Intern

Nov 2025 – Dec 2025

Noida, Uttar Pradesh | On-site

- Gained hands-on experience in full-stack web application development in an intensive internship.
- Built responsive frontend features with React.js and Tailwind CSS and contributed to end-to-end project delivery.

PROJECTS

LMS – Full-Stack Learning Management Mobile App | React Native, Expo, Node.js, Express 5, TypeScript, MongoDB, Docker

github.com/atul0223/LMS_mobile_application

- Built a cross-platform (Android, iOS, Web) LMS with separate Student and Teacher workflows: course feed and search, enrollment, “My Learning” dashboard and a Teacher Studio for course and lesson management.
- Engineered a video pipeline supporting 500 MB uploads: direct signed uploads to Cloudinary for files ≤95 MB and server-side FFmpeg compression for larger files, with adaptive HLS streaming and short-lived signed playback URLs.
- Secured the API with OTP email verification (SHA-256 hashed), JWT authentication, role-based access control and IP-based rate limiting.
- Containerized the backend with a multi-stage Docker build (Debian Slim + FFmpeg, non-root user, health checks) and deployed it on Render using an Infrastructure-as-Code blueprint (render.yaml).

LoveChat – Social Media Platform | MERN Stack, TypeScript, Socket.IO, Tailwind CSS

github.com/atul0223/Social-media-platform-V2 | loveable-mu.vercel.app

- Developed an Instagram/Pinterest-style social platform with secure JWT authentication, posts with likes and comments, and follow/unfollow/block networking.
- Implemented real-time one-to-one and group chat using Socket.IO and WebSockets; deployed the frontend on Vercel.

Library Management System | MERN Stack, TypeScript, JWT

github.com/atul0223/library-management-system

- Built an end-to-end library system with secure authentication, book borrow/return workflows, a dashboard and well-structured MongoDB schemas.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

2022 – 2026

Neelkanth Institute of Technology, Meerut – Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow

Languages: English, Hindi
